

ImagePerfect™ 2411 Wallpaper Canvas (FR)

ImagePerfect™ 2411 Wallpaper Canvas is a washable paper for wall decoration. This product has been specially created for digital printing on large-format inkjet printers and is suitable for printing with eco solvent and solvent inks as well as UV-cured and latex inks.

ImagePerfect™ 2411 Wallpaper Canvas is a structured wallpaper. Due to its non-woven backing, this wallpaper is very easy to apply with wallpaper paste (for wallpapers with a non-woven liner) and it has easy removability. The printed material can be cleaned with warm water, soap and a soft sponge, and the printed graphics are also very scrub resistant. It incorporates high levels of dimensional stability and generates no shrinkage. As such, individual panels do not need to be overlapped; they can simply be applied side-by-side on the substrate with no risk of subsequent separation. Test results can be categorised as being of the highest standard in the wallpaper industry. IP 2411 can be used to personalise home interiors, show rooms, trade shows, event locations, restaurants, hotels and many more environments. This product is also available with a different surface emboss/finish as IP 2412 Wallpaper Sandblast.

Attention: It is important to use the matched print profile for this product as vertically applied graphics may otherwise delaminate from the substrate as a result of increased surface tension (caused by ink oversaturation). It is strongly recommended for printed media to lay flat during the drying process. Please ensure that the printed IP 2411 is completely dry before application. Please ensure that the surface is perfectly clean before application. Wallpaper paste recommendation: Henkel or Quelyd (for 'non-woven' wallpapers) which is readily available in most Do-It-Yourself shops.

Specifications	
Description	Wallpaper
Colour	White matt
Thickness	330mym
Weight	240g/m ²
Temperature Range	N/A
Durability (unprinted)	N/A
Flame Retardancy	B1
Shelf Life	2 years, 20°C / 50% humidity
