

# ImagePerfect™ 2908

## Static Cling Film Clear

**ImagePerfect™ 2908 Static Cling Film is a reusable product that has been formulated to adhere to smooth, glossy surfaces without the need of an adhesive system. It has been specifically designed for digital printing on large-format inkjets and is suitable for printing with eco solvent and solvent inks as well as UV-cured inks.**

ImagePerfect™ 2908 sticks/clings to smooth, glossy surfaces such as glass, ceramic tiles, smooth plastics (such as acrylic) and glossy metal surfaces without an adhesive system and can be removed without leaving any residue behind. As a reusable product, it is an effective solution for multi-use decorative and informative graphics in retail locations, offices, educational establishments, trade shows, etc. We would not recommend contour cutting of the graphics within the first 72 hours after printing. Please note that the printed graphic should not be applied with the ink in direct contact with glass, as this could cause some ink transfer onto the glass.

Specifications	
<b>Description</b>	Static cling film
<b>Colour</b>	Clear
<b>Thickness</b>	180mym
<b>Weight</b>	N/A
<b>Temperature Range</b>	-30°C to +70°C
<b>Durability (unprinted)</b>	N/A
<b>Flame Retardancy</b>	N/A
<b>Shelf Life</b>	6 months, 20°C / 50% humidity
