

# ImagePerfect™ 3500

## Intermediate Film (FR)

**ImagePerfect™ 3500 Intermediate Film is a high-quality, medium-term, gloss vinyl range with a permanent, solvent-based adhesive. This range is available in black, white, clear and 42 colours. Black and white gloss is also available with a semi-permanent, solvent-based adhesive.**

ImagePerfect™ 3500 Intermediate Film is suitable for a wide variety of indoor and medium-term outdoor applications, such as general purpose signage, decorative panels, directional signage, medium-life outdoor advertising, point-of-sale displays, fleet marking, public transport advertising, etc. The specially-formulated, flexible films can be cut easily and weeded quickly. A permanent, solvent-based adhesive creates a strong final bond to ensure a secure and durable finish. Black and white gloss are also available with a semi-permanent, solvent-based adhesive that creates a reasonable final bond to ensure a secure, but semi-permanent finish. The inherent properties of the products promote excellent cutting and weeding characteristics because of the high-quality, PE-coated, silicone liner. For white vinyl, a light blue silicone liner is used to form a stronger contrast to lettering. ImagePerfect™ 3500 Intermediate Film with a gloss finish is also suitable for thermal transfer printing (with resin ribbons).

Specifications	
Description	Intermediate film
Colour	Black, white, clear and 42 colours, gloss
Thickness	75mym
Weight	N/A
Adhesive	Solvent based acrylic, permanent (black and white gloss also available in semi-permanent)
Adhesive Strength	20N/25mm (Finat TM 1/24h)
Release Paper	PE-coated silicone liner, 140g/m <sup>2</sup> , white vinyl with blue contrast liner
Temperature Range	-30°C to +90°C
Durability (unprinted)	6 years (black and white) 4 years (clear, colours and metallics)
Flame Retardancy	B1
Shelf Life	2 years, 20°C / 50% humidity
End of Life / Disposal	Not currently recyclable. Can be used for refuse derived fuel (RDF)
