

ImagePerfect™ 5700T

High Performance Translucent Film (FR)

ImagePerfect™ 5700T High Performance Translucent Film is a superior quality, translucent vinyl range with a permanent, solvent-based adhesive. This range is available in black, white and 49 colours.

ImagePerfect™ 5700T High Performance Translucent Film is suitable for application, including light boxes, in which the film needs high-quality illumination. The specially-formulated, flexible, high performance films can be cut easily and weeded quickly. A permanent, solvent-based adhesive creates a strong final bond to ensure a secure and durable finish. The high-quality, PE-coated, silicone liner promotes excellent layflat, cutting and weeding characteristics. For white vinyl, a light blue silicone liner is used to form a stronger contrast to lettering.
