

# ImagePerfect™ 5903 Blackboard Film (FR)

**ImagePerfect™ 5903 Blackboard Film is a calendered vinyl with a waterproof, permanent adhesive system. It has been specially designed for use in transforming surfaces into blackboards and for recovering existing blackboards. For use with (traditional) chalk.**

ImagePerfect™ 5903 Blackboard Film is an embossed, calendered vinyl that is suitable for use with (traditional) chalk. It has been specially designed for use in transforming surfaces into blackboards and for recovering existing blackboards. It will be used in some retail locations and in many lifestyle business locations, such as bars, restaurants, cafes, hotels, casinos, sports arenas, etc, for the creation of changeable messages. The adhesive has a low initial bond to enable repositionability but builds over 24 hours to form a permanent, waterproof bond on most substrates. It can be cleaned with any blackboard wiper or water and a soft, clean sponge/cloth.

| Specifications         |   |
|------------------------|---|
| Description            | Monomeric vinyl   |
| Colour                 | Black matt embossed   |
| Thickness              | 180mym  |
| Weight                 | N/A   |
| Adhesive               | Solvent based acrylic, permanent                                    |
| Adhesive Strength      | 20N/25mm (Finat TM 1/24h) ±1N                                       |
| Release Paper          | PE-coated silicone paper, 140g/m <sup>2</sup>                       |
| Temperature Range      | -30°C to +90°C  |
| Durability (unprinted) | External, 3 years<br>Internal, 5 years                              |
| Flame Retardancy       | B1  |
| Shelf Life             | 2 years, 20°C / 50% humidity  |
| End of Life / Disposal | Not currently recyclable. Can be used for refuse derived fuel (RDF) |
