

ImagePerfect™ 7309

Clear 240 EXT

Safety and security film for exterior use on buildings, providing splinter-free breakage in the event of glass damage.

ImagePerfect™ 7309 Clear 240 EXT is a safety and security film for up to 9 year exterior use. It has been specifically engineered for application to glass, providing anti-shatter properties, whereby any glass breakage is splinter-free. Amongst other environments where it could be used, including private households, offices, schools and government agencies, it is especially recommended for use in retail locations and on display cases. The film is very transparent and so admits the required level of visible light, whilst blocking a very high proportion of UV light, thereby reducing the fading impact on furniture and fabrics and helping to reduce the risk of skin cancer. The product utilises a high-quality PET film with high optical qualities and a hard, scratch-resistant surface for durability and ease of maintenance during window cleaning. It must be wet applied.

Attention: To avoid possible glass breakage, please contact your local ImagePerfect distributor before Installation. Do not clean for at least 1 month after application and do not apply any type of sticker or adhesive on the film.

Specifications	
Description	IP 7309
Installation	Exterior
Colour From the Outside	Transparent
Durability (Vertical Application)	9 years
Thickness	240mym
Film Composition	PET
Solar Energy Reflection	10%
Solar Energy Absorption	14%
Solar Energy Transmission	76%
Total Solar Energy Rejected	20%
Visible Light Transmission	83%
g-Value	0.82
UV Transmission (300-380NM)	1%
Edge Sealing, Vertical (25-89°)	Recommended
Flame Retardancy	M1
Pendulum Test EN 12600	1B1
Security Glazing EN 356	N/A
Shelf Life (Storage at -5°C to +40°C)	3 years
