

ImagePerfect™ 7310

Silver 125 EXT

Safety and security film for exterior use on buildings, providing splinter-free breakage in the event of glass damage.

ImagePerfect™ 7310 Silver 125 EXT is a safety and security film for up to 9 year exterior use. It has been specifically engineered for application to glass, providing anti-shatter properties, whereby any glass breakage is splinter-free. Amongst other environments, it will be used in private households, offices, retail locations, schools and government agencies. The film incorporates a reflective surface with the one-way mirror effect providing privacy and a contemporary look on any building exterior. It is extremely effective at reducing solar heat gain whilst continuing to allow some natural light transmission. It will also block a very high proportion of UV light, thereby reducing the fading impact on furniture and fabrics and helping to reduce the risk of skin cancer. The product utilises a high-quality PET film with high optical qualities and a hard, scratch-resistant surface for durability and ease of maintenance during window cleaning. It must be wet applied.

Attention: To avoid possible glass breakage, please contact your local ImagePerfect distributor before Installation. Do not clean for at least 1 month after application and do not apply any type of sticker or adhesive on the film.

Specifications	
Description	IP 7310
Installation	Exterior
Colour From the Outside	Silver
Durability (Vertical Application)	9 years
Thickness	125mym
Film Composition	PET
Solar Energy Reflection	67%
Solar Energy Absorption	20%
Solar Energy Transmission	13%
Total Solar Energy Rejected	82%
Visible Light Transmission	16%
g-Value	0.18
UV Transmission (300-380nm)	1%
Edge Sealing, Vertical (25-89°)	Recommended
Flame Retardancy	M1
Pendulum Test EN 12600	2B2
Security Glazing EN 356	N/A
Shelf Life (Storage at -5°C to +40°C)	3 years
