

# ImagePerfect™ 7503 Projection Film

**When applied to glass, ImagePerfect™ Projection Film creates a perfect surface for media projection and viewing.**

ImagePerfect™ Projection Film incorporates a frosted polyester film with a satin surface that, when applied to glass, provides a perfect surface for rear projection. It will be used for day or night advertising messages and promotional presentations in retail environments, including showrooms and shopping centres, and in event business locations, including trade shows and exhibitions. It provides the optimum balance between opacity and projection quality, ensuring that all of the light within an image can be properly captured, resulting in the projection of dynamic colours. It could also be used as a front projection film, for instance as a backdrop for commercial presentations in meeting rooms and for media viewing in domestic environments, but the surface will be matt rather than gloss. It must be wet applied.

Attention: Do not clean for at least 1 month after application and do not apply any type of sticker or adhesive on the film.

Specifications	
<b>Description</b>	Polyester
<b>Installation</b>	Interior
<b>Colour from the outside</b>	White
<b>Thickness</b>	150mym
<b>Adhesive</b>	Solvent based acrylic, permanent
<b>Visible Light Transmission</b>	N/A
<b>Durability (unprinted)</b>	10 years
<b>Flame Retardancy</b>	M1
<b>Shelf Life (at -5°C to +40°C)</b>	3 years
<b>End of Life / Disposal</b>	N/A
