

# ImagePerfect™ AT 700

## High-Tack Application Tape

**ImagePerfect™ AT 700 is a highly-engineered, paper application tape with a high-tack adhesive that has been specially developed for all graphic applications.**

ImagePerfect™ AT 700 has been engineered to offer higher performance values than most standard application tapes. It has excellent layflat properties and will not curl on the edges. It promotes easy stacking properties, which makes the graphics easy to stock for a longer period of time and allows for trouble-free transportation. As such, stacked graphics will not stick to each other and will remain free from creasing. The high-tech, latex-based adhesive system provides very good adhesion properties on silicone paper. In relation to IP AT 500, IP AT 700 is thicker and heavier which means that it has more body and so is potentially easier to work with. It will also deliver more process security (as it is less flexible). IP AT 700 can be used in conjunction with glass decoration products, gloss vinyls, matt vinyls, polyester, etc, but it would typically be used for (smaller-scale) Signage installations rather than (larger-scale) Digital installations.

Specifications	
<b>Description</b>	Paper application tape
<b>Colour</b>	Translucent, white
<b>Thickness</b>	133mym
<b>Weight</b>	N/A
<b>Adhesive</b>	Latex-based
<b>Adhesive Strength</b>	20N/100mm
<b>Tensile Strength</b>	83N/25cm
<b>Elongation at break</b>	12%
<b>Shelf Life</b>	6 months, 20°C / 55% humidity
