ImagePerfect™

ImagePerfect™ ATF 70
Medium-Tack Application Tape

ImagePerfect™ ATF 70 is a high-quality, film application tape with excellent layflat properties and dimensional stability, allowing for the easy transfer of graphics.

ImagePerfect™ ATF 70 has been engineered to offer higher performance values than most standard application tapes. It is a film-based, transparent tape that has excellent layflat properties and will not curl on the edges. It promotes easy stacking properties, which makes the graphics easy to stock for a longer period of time and allows for trouble-free transportation. As such, stacked graphics will not stick to each other and will remain free from creasing. The high-tech, acrylic adhesive system provides very good adhesion levels on silicone paper. In relation to a paper application tape, the transparency of IP ATF 70 allows for more accurate positioning of the graphics and it will also promote more resistance to humidity. As a time-saving consideration, the special film can be torn by hand, removing the need for a cutter or scissors. IP ATF 70 can be used in conjunction with glass decoration products, gloss vinyls, matt vinyls, polyester, etc, and it could be considered for both (smaller-scale) Signage installations and also (larger-scale) Digital installations.

Specifications	
Description	Film application tape
Colour	Transparent
Thickness	130mym
Weight	N/A
Adhesive	Acrylic
Adhesive Strength	12N/100mm
Tensile Strength	105N/25cm
Elongation at break	10%
Shelf Life	6 months, 20°C / 55% humidity
