

ImagePerfect™ Mounting Tape

Adhesive Tape for Paper, PP, PET and Tyvek

ImagePerfect™ Mounting Tape is a highly cohesive tape that has been engineered for the seaming and splicing of paper-based banners, as well as a broad range of synthetic media made of polypropylene, polyester, Tyvek, etc.

ImagePerfect™ Mounting Tape is a double-sided transfer tape that incorporates a strong, durable adhesive system with a high initial grab. It allows for the creation of first-class seams or splices on paper-based banners, as well as a broad range of synthetic media made of polypropylene, polyester, Tyvek, etc. It can also be used on low-energy surfaces and meshes and textiles that incorporate a closed structure. As such, it will be used in all kinds of applications, including point-of-sale displays, hanging displays, pop-up displays and roll-up displays, etc. A clean substrate and high-contact pressure using an application roller are important to ensure successful application. IP Mounting Tape should be applied at room temperature, 24 hours prior to mounting the finished assembly. IP Mounting Tape is not resistant to plasticizer.

Specifications	
Description	Double-sided transfer tape
Colour	Transparent
Thickness	100mym
Weight	N/A
Adhesive	Rubber-based
Adhesive Strength	23N/25mm (Finat TM 1/24h)
Release Paper	Silicone paper, brown
Temperature Range	-20°C to +70°C
Durability (unprinted)	N/A
Flame Retardancy	N/A
Shelf Life	1 year, 20°C / 50% humidity
