

# ImagePerfect™ PrintFlex Tape

## High-Tack Application Tape

**ImagePerfect™ PrintFlex Tape is a highly-engineered, high-tack, polyester application tape that has been specially developed for use with all heat-transfer flex and flock products.**

ImagePerfect™ PrintFlex Tape has been engineered to offer higher performance values than most standard application tapes. It is a clear polyester application tape that is used in the transfer of flex and flock (Signage and Digital) to their corresponding surface. It utilises a film and an adhesive system that are both heat-resistant, thereby ensuring there is no shrinkage of the product in the heat press. With an adhesive coating that is heavier than on most other application tapes, this high-tack application tape is a particularly effective product for use in combination with the range of IP flex and flock products. The clarity of the film facilitates the accurate positioning of graphics, particularly when compared to the use of opaque/translucent application tapes. As a value-adding feature, this application tape can be used 2 or 3 times before disposal.

Specifications	
<b>Description</b>	Polyester application tape
<b>Colour</b>	Transparent
<b>Thickness</b>	90mym
<b>Liner</b>	50mym paper
<b>Adhesive</b>	Acrylic, thermal-resistant
<b>Adhesive Strength</b>	N/A
<b>Tensile Strength</b>	N/A
<b>Elongation at break</b>	N/A
<b>Shelf Life</b>	6 months, 20°C / 55% humidity
