

ImagePerfect™ iD7 Reflect Air High-Performance Vinyl

ImagePerfect™ iD7 Reflect Air is a printable reflective vinyl incorporating PerfectApply technology and a permanent, air-release, clear solvent based adhesive, for indoor and outdoor applications where reflectivity is important. It has been specially created for digital printing on large-format inkjet printers and is suitable for printing with eco-solvent, solvent, latex, and UV inks.

ImagePerfect™ iD7 Reflect Air is an engineering-grade reflective product used for indoor and outdoor applications such as markings, decorations and vehicle graphics. It incorporates PerfectApply technology to increase repositionability and to facilitate bubble-free application. It exhibits high levels of print quality with remarkable text definition and a wide color gamut to ensure colorful images with vibrant area infills. The film is a unique construction that enables the product to stretch and conform as needed, and is therefore an ideal product to use for vehicle wraps and fleet applications in addition to standard signage. This film should be dry applied only. The recommended laminate is iD9 Fleet Lam Gloss/Matte or iD5 OptiClear for applications that do not require stretching or conformability.

Attention: Please ensure all printed products are completely cured before laminating. 24-hour cure time is essential when using solvent or eco-solvent inks. All application surfaces should always be properly and completely cleaned and dried when working with an air-release product.

Specifications

Description	Engineering-grade reflective vinyl
Color	White gloss
Thickness	6mil
Weight	N/A
Adhesive	Pressure sensitive acrylic, permanent
Adhesive Strength	N/A
Liner	Double-side PE coated, air-release, 90#
Temperature Range	-20°F to +190°F
Durability (unprinted)	7 years
Flame Retardancy	N/A
Shelf Life	1 year, 68°F / 50% humidity
Laminate	IP iD9 Lam Gloss and IP iD5 OptiClear
End of Life / Disposal	Not currently recyclable. Can be used for refuse derived fuel (RDF)
