

## ImagePerfect™ iD1/iD3 70/30 Perforated Window Films

ImagePerfect™ iD1/iD3 PWF films feature a unique dual-layer liner that enables printing on all printer types including solvent, eco-solvent, latex and UV without risk of the ink clogging the perforation holes. Both films feature a 6-mil vinyl with a clear removable, solvent-based adhesive. iD1 has one year durability and is intended for shorter term use, while iD3 features a more durable film and longer-term adhesive.

Specifications	
Finish	White
Durability (unprinted)	1 year (iD1) and 3 years (iD3)
Roll Width	54" / 63"
Roll Length	50 yards
Adhesive	Solvent-based acrylic, removable
Release Liner	Dual laminated liner, 90#

### Features

- 30% open area, one-way see-through window film
- Laminated white/black vinyl construction adds body for easier installation and durability
- Pressure sensitive low tack adhesive for easier installation
- Printable with UV, Latex and Eco-Solvent

### Benefits

- Unique dual-layered liner enables worryfree printing on latex and UV printers
- Clean removal (up to 6 months in normal conditions)
- Clear adhesive does not leave black marks when removed

### Applications

- One-way vision requirements, including retail and vehicle
- Can be used for both indoor or outdoor applications
